

**Virtual Meeting: December, 15<sup>th</sup> 2023, 10:00am - 12:30pm (CET)**

## “21 Plateaus” Creating a UNIC University Collections Network for teaching, research and societal impact

The networking workshop brings together different university collections of the European University of Post-Industrial Cities (UNIC) and explores ideas for collaborative teaching, research, and exhibition projects. We will discuss:

- Specific artworks and scientific objects from five UNIC University Collections from early human history to the 21st century
- Future projects that involve and engage both university collections and civil society
- Current efforts in engaged teaching and research with societal impact, with the aim to enhance inclusion, diversity and mobility within and between all UNIC European Universities

The "21 Plateaus" workshop is open to students, academic and administrative staff, and other stakeholders who would like to get to know more about university collections and engaged research across the UNIC network.

We are looking forward to seeing you there!
